SharpPoint is available through distribution or direct. For procedural videos, visit: [youtube.com/CorzaMedical](https://youtube.com/CorzaMedical)

SharpPoint absorbable sutures shall be used in general soft tissue approximation where the use of absorbable suture is appropriate. Non-absorbable sutures are indicated for use in general soft tissue approximation and/or ligation. Monoderm & PDO are not for use cardiovascular or neurological tissues, microsurgery or ophthalmic surgery. Polysyn and Gut are not indicated for cardiovascular or neurological procedures. Polysyn FA™ is not intended for use in ligation, ophthalmic, cardiovascular or neurological procedures. As with all surgical sutures, adverse effects may include wound dehiscence, failure to provide adequate wound support, infection, minimal acute inflammatory tissue reaction at the wound site amongst others. For complete indications, contraindications, warnings, precautions, and adverse reactions, refer to the instructions for use (IFU).
